

## **Brief introduction of social responsibility of Shandong Pharmaceutical Glass Co., Ltd**

Shandong Pharmaceutical Glass Co., Ltd., as a worldwide player in pharmaceutical packaging materials, a leader in China's pharmaceutical packaging industry, and a promoter of regional economic construction, has been actively fulfilling its due social responsibility and striving to establish a responsible and responsible corporate image in the process of development.

Based on the industry, strive for excellence. The company always adheres to the innovative concept, closely follows the development pulse of the industry, aims at the cutting-edge technology of world-class pharmaceutical glass development, and on the basis of developing the leading products of molded antibiotic bottles, has successively overcome a number of key technical problems of first-class water resistant glass and first-class alkali resistant glass, mastered a series of core technologies with independent intellectual property rights, and broken the industry monopoly, Leading the high quality development of pharmaceutical packaging industry.

**Quality is the king, bravely undertake the mission.** The company always takes the product quality as the driving force to promote the rapid development of the enterprise, introduces the international advanced quality management concept, strictly controls the product quality, and is committed to producing high-quality products for pharmaceutical enterprises and the people. In 2020 COVID-19 suddenly outbreak in the world, the company took the responsibility to make full use of the prefilling syringe products for vaccine packaging, and actively provided high quality products for vaccine manufacturers.

**Energy saving, environmental protection and green development.** The company has continuously increased investment in environmental protection treatment facilities, successively introduced dry desulfurization, metal bag dust removal, low temperature denitration, waste heat utilization, ceramic integrated desulfurization, denitration and dust removal integrated environmental treatment processes, effectively reduced all kinds of emissions, and gradually achieved ultra-low emissions of various environmental protection indicators; A large amount of money has been invested in the construction of clean utilization demonstration project of pulverized coal staged gasification, realizing the reduction and clean utilization of coal. The

development of Shandong Pharmaceutical Glass always takes green development as the hard index, and always practices the call of "green water and green mountains are golden mountains and silver mountains".

**Care for employees and go hand in hand.** The development of an enterprise depends on its employees, who are the masters of the enterprise, and caring for them is the foundation of its development. In recent years, the company has continued to increase the welfare investment of employees, so that employees can get tangible benefits. Through the distribution of Spring Festival and Mid Autumn Festival benefits, pre job meals, birthday cake coupons for school-age employees, cool summer for the majority of employees, school banquet for children of employees, free health examination for all employees and other activities, the company has brought real care to employees; In terms of staff's spiritual culture, the use of holidays to actively organize staff to carry out fun games, mental health lectures, to ensure the physical and mental health of the staff; Through a series of care measures, the staff will be firmly united, hand in hand, and jointly promote the development of the enterprise.

**Public welfare undertakings will never stop.** While striving to ensure its healthy and sustainable development, the company is also enthusiastic about social public welfare undertakings, takes the initiative to assume social responsibility, and actively participates in public welfare activities such as poverty alleviation, disaster relief and Red Cross donation. In 2016, the company, together with other companies, jointly launched the establishment of the warm sun spring rain foundation, which will provide support for people suffering from major diseases, natural disasters, and other disasters In order to improve the production and living conditions of the poor groups, improve their quality and ability, help the poor villages to get rid of poverty, become rich and develop continuously, and help Yiyuan County to get rid of poverty. In the face of all kinds of disasters, Shandong Pharmaceutical Glass Co., Ltd. is in charge, actively rushing for help, donating money and materials. In early 2020, in the face of sudden COVID-19, the company actively played the role of state-owned enterprises, donated a total of 3 million yuan to the Red Cross Society of Yiyuan, and actively launched about 300000 yuan of voluntary contributions from workers and members of the party, making a due contribution to the fight against the epidemic.

**Steady development and considerable contribution.** The healthy and orderly development of enterprises is the most powerful proof of social responsibility. Over the years, the company has continued to achieve the growth of economic benefits, the economic and technical indicators are ranked first in the same industry in China, and the tax amount ranks first in Zibo City and Yiyuan County, which strongly supports the local economic construction. At the same time, the company also actively responded to the local government's investment promotion policy of "second pioneering" for existing enterprises, actively carried out "second pioneering", planned and constructed a thousand mu Industrial Park in the Development Zone, and built a production base of pharmaceutical glass borosilicate glass. The annual output of 1.8 billion first-class water-resistant medical glass control series bottles, 2 billion low borosilicate medical glass control series bottles, first-class water-resistant medical glass bottles and high-grade light-weight glass bottles has been completed. While creating new growth points for the company's development, more than 2500 new jobs have been created, which has brought new momentum for the local social development.
